Adjectives

Adjectives are words that describe or give more information about nouns (people, places, things, or ideas) in a sentence. They help us to better understand and describe the nouns. Adjectives can describe the **size**, **colour**, **shape**, **age**, and **other characteristics** of the noun.

Here are a few different types of adjectives:

Comparative:

Comparative adjectives are used to compare two or more things or people. They are formed by adding "-er" to the end of the adjective or by using "more" before the adjective.

Superlative:

Superlative adjectives express the extreme form of an adjective. They are typically formed by adding "-est" to the end of the adjective, or by preceding the adjective with "the most.".
